# COUNTDOWN

Countdown is an extra game included with TOKYO JUTAKU that uses the same pieces.

Time: 5 minutes
Players: 1-8

Setup: Each player takes any one card. Ignoring the darkened site border and using only the edges of the card itself, they will build a succession of floors.

How to Play: Using the same building rules as TOKYO JUTAKU, players will build as many pieces as they can onto each floor, within a succession of timed rounds.

ignore the content on the card and use the actual border of the card itself as a building site.

1st Floor: 60 Seconds
2nd Floor: 45 Seconds
3rd Floor: 30 Seconds
Further Floors: 15 Seconds

When a player fails to add any pieces in one of the timed rounds, their game is over. They count up the total pieces used and that is their score. The remaining players continue until all are out.
